| Bachelor of Computer Application, Affiliated to CCSU Meerut     | 68%              |

## INTERNSHIP

### Full Stack PHP Developer - SunlightTech

Sept 2024– Dec 2024

#### Title - Service Management Platform Live Project:

##### User Panel

- **Service Requests:** Users can submit, track, and manage their service request.
- **Self-Service Portal:** Users can access knowledge bases, FAQs, and resolve common issues independently.

##### Admin Panel Development:

Developed a fully functional admin panel using PHP and MySQL. The project involved designing an intuitive user interface and implementing backend functionalities to manage core business operations.

- **User Management:** Secure authentication and role-based access control.
- **Service Management:** Functionality to add, edit, and delete services.
- **Troubleshooting and Debugging:** Regularly debugged and maintained the admin panel to address issues and improve performance.

## PROJECT

### ECOMMERCE LAPTOP STORE:-

- **Developed an e-commerce Platform:** Designed and built a laptop store using PHP and MySQL, enabling users to browse, search, and purchase laptops.
- **User and Admin Panels:** Created separate interfaces for users to manage their purchases and for admins to manage products and orders.
- **Database Management:** Managed databases to ensure efficient storage, retrieval, and security of user and product data.

## TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JAVASCRIPT , PHP, JAVA
- **Tools/IDE/Framework:** MYSQL, Microsoft Visual Studio.
